Most of this new funding obligated on the IA is planned for continued work at the San Jacinto remedial site. A new Work Authorization will be issued with an expanded SOW. The RPM, Gary Miller, has not been receiving reports or copies of the bills for previous work at the San Jacinto site which was issued to the Mississippi District, Project Manager Earl Hayter. Gary & other RPMs have worked with your Omaha office and have always been pleased with the reporting they have provided and would like to see the same from the office in Mississippi. Gary would like to make sure we get off to a good start with this assignment so when he has completed the new SOW, I suggested we set up a conference call with you, Earl, Gary, and me? As soon as Gary is ready to issue the new WAF we'll be in contact to set up a time that is convenient for all. Thank you.
